End of Month/Year Procedures

Operations Manager, DAF Mission Feeding

Purpose

- To discuss guidance and submission requirements for end of fiscal year inventory.

Overview

- **DFAC Manager Handbook**
 - Para 1.7.5 Mid Month & End of Month Responsibilities
- **DAFMAN 34-131**
 - Chapter 7.14 End of Year Review
- **Storeroom Handbook**
 - 5.3.4 End of Year Inventory
- **SAIIT**
- **Required Documents**
- **Submission Demo**
- **Questions**

DFAC Manager Handbook

■ 1.7.5. Mid-Month & End of Month (EOM) Responsibilities

- 1.7.5.1. Managers Must Maintain and Report Accurate Physical Inventories.
 - Prior to conducting the physical inventory, the DFAC Manager will ensure all receipts from the vendors and commissary have been reconciled. If a receipt has not been reconciled, it must be done before the current inventory period is posted. Every receipt and every food item physically brought into the Storeroom must be entered into the inventory and reconciled. Access the "View/Edit Recent Vendor Order" option from the CrunchTime Net-Chef to reconcile receipts and vouchers.
- 1.7.5.2. Physical Inventory Count
 - Physical inventory counts should be accomplished after the dinner meals as the dining facility is closed and items are not being sold through the point-of-sales (POS) system.
- 1.7.5.3. Physical Inventory Review
 - Inventories are completed on the 15th and last day of every month. The Storeroom personnel conduct physical inventories in all areas (Storage areas, back of house, kitchen areas and front of house). All items not sold must be accounted for. They will review the inventory to identify missing/wrong prices, miscounts or incorrect values, and high variances. Once Storeroom personnel review the inventory and make applicable corrections, the DFAC Manager will conduct their Sales, Adjustments, Invoices, Inventory, Transfers (SAIIT) review within 24 hours. Utilize the CrunchTime Handbook for the steps to review the mid-month and end-of-month inventories.

DAFMAN 34-131

■ Chapter 7.14 End of Fiscal Year Physical Inventory

- 7.14 The FSO/FSSC will assign, in writing, an Inventory Officer from outside Food Service. On the last day the fiscal year, the Inventory Officer conducts a physical inventory using the following procedures
- 7.14.1 The DFAC manager provides printed count sheets.
- 7.14.2 Storeroom personnel, under observation of the inventory officers, physically count inventory items in storage locations, kitchens, and production areas.
- 7.14.3 Storeroom personnel enter inventory counts into the automated system. The inventory officer verifies counts were entered accurately. Storeroom personnel save the inventory count and reconcile overages and shortages by utilizing the financial period review process. Inventory officers, DFAC managers, and storeroom managers sign the count sheet, certifying the inventory is correct.
- 7.14.4. Once inventory is completed, the DFAC manager saves the completed inventory in the automated system, closes out and posts financial period within 5 days of the last day of the fiscal year.
- 7.14.5. The DFAC manager prepares a "disinterested party memorandum" that identifies inventory officers, outlines inventory and includes physical value. The FSO/FSSC signs the memorandum. The DFAC manager will forward a copy to the Food Service Accountant (to be filed IAW the associated records disposition schedule) and provide a copy of the last page of the inventory to AFSVC/VMF.

Storeroom Handbook

■ 5.3.4. End of Year Inventory

- End of fiscal year inventory is conducted on 30 September.
- The operation will require a disinterested party to assigned to conduct with storeroom personnel.
- Storeroom personnel and the disinterested party will count everything together and input into CrunchTime.
- Everyone will then conduct the review to make sure everything is correct, and that there are no discrepancies.
- Once completed the disinterested party will sign the count sheets, confirming they were there for the process.

SAIT

■ SAIT

- **Sales:** The sales from each day must match in CrunchTime, the Food Service Form 1119 and Aloha Enterprise. If they do not match, the accountant must review all documents again to find the error.
- **Adjustments:** DFAC management should review Adjustments every day and adjust servings to prepare on Production Logs if there is too much waste after a meal. Again, DFAC management should review this every day and ask applicable questions.
- **Invoices:** Compare Purchase Journal to STORES Sent Receipt Reports to ensure they match. All invoices to include Prime Vendor, Produce, Dairy, Soda, Bread and Commissary, should be received and reconciled into CrunchTime within 24 hours after the deliveries are made.
- **Transfers:** Some legacy DFACs have multiple facilities (Example - second DFAC, Flight Kitchen) transfers between the two operations can be accomplished through CrunchTime. Transfers will be recorded under Adjustments when reviewing your inventory in CT. Transfers can also be accomplished if sending food out to a crash site or to an exercise. [Prior to transferring to a crash site or exercise, contact your AFSVC Mission Feeding representative for approval and directions.](#) *(For additional information refer to the Storeroom Handbook)*
- **Inventory:** Once the storeroom has completed their review and made necessary changes, DFAC management must complete their review. By the time DFAC management conducts their review, only minimal changes should be required. [Storeroom and DFAC management should have the review completed NLT 5 days after the inventory date.](#) Inventory review should be the last part of the SAIT process to capture the financial aspects within sales, adjustments, invoices, and transfers to properly review financial for accuracy.

Required Documents

- Documents are to be submitted via TEAMS within your Portfolio Monthly Data Folders
- EOM documents are as follows:
 - 1119
 - SF 1080
 - SAIIT
 - Bank Statement (GPC Purchases)
 - 1119-1 (Field feeding)
 - 1038 (Quarterly)
- EOY documentation will also include the MFR IAW: 7.14.5. The DFAC manager prepares a “disinterested party memorandum” that identifies inventory officers, outlines inventory, and includes physical value. The FSO/FSSC signs the memorandum. The DFAC manager will forward a copy to the Food Service Accountant (to be filed IAW the associated records disposition schedule) and provide a copy of the last page of the inventory to AFSVC/VMF. (T-1) ANG DFAC managers will provide a copy of the last page of the inventory to NGB/A1X. (T-1).
